Learning paths completed

N/A means either not all module assessments exist or there is no pass record. All Learning Paths in this table are complete.

Learning path title	Description	Completed on	All module assessment results
Manage and secure Power BI	Ensure content is accessible and distributed effectively in Power BI to foster collaboration and informed decision-making. Protect sensitive information with robust security, building trust across your organization.	Sep 4, 2025	N/A

Learning path title	Description	Completed on	All module assessment results
Design effective reports in Power BI	This learning path introduces a design process to design and deliver compelling Power BI reports. It begins by describing a proven design process created by leading report design experts. The process encompasses phases to understand the report users and their requirements, explore pleasing report designs, and develop reports all the way into production.	Sep 4, 2025	N/A
Prepare and visualize data with Microsoft Power BI	Power BI allows you to easily connect to and present your data in an interactive report, so you can make data-driven decisions. Learn how to connect to data, transform and shape data, and create interactive visuals in a Power BI report. (DP-605T00)	Sep 4, 2025	N/A
Model data with Power BI	Model data with Power BI	Sep 3, 2025	N/A

Learning path title	Description	Completed on	All module assessment results
Use DAX in Power BI Desktop	This learning path introduces Data Analysis Expressions (DAX) and provides you with foundational skills required to enhance data models with calculations. It starts by describing Power BI Desktop model structure and how it can be enhanced with DAX calculations. It then describes how you can write DAX formulas and the different types of model calculations, including calculated tables and columns, and measures. Evaluation contexts are introduced, and subsequent lessons describe how to write DAX formulas that modify filter context. Finally, you learn to write DAX expressions using time intelligence functions and iterator functions.	Sep 3, 2025	N/A
Prepare data for analysis	You will explore Power Query as you learn to extract data from different data sources and choose a storage mode and connectivity type. You will learn to profile, clean, and load data into Power BI in preparation for modeling your data.	Sep 3, 2025	N/A
Work smarter with Copilot in Microsoft Fabric	Explore how to work smarter with Copilot in Microsoft Fabric. Learn how to integrate, transform, store data, and create insightful reports using Copilot in Microsoft Fabric.	Sep 3, 2025	 All module assessments passed Sep 3, 2025

Learning path title	Description	Completed on	All module assessment results
Get started with Microsoft data analytics	Businesses need data analysis more than ever. In this learning path, you will learn about the life and journey of a data analyst, the skills, tasks, and processes they go through in order to tell a story with data so trusted business decisions can be made. You will learn how the suite of Power BI tools and services are used by a data analyst to tell a compelling story through reports and dashboards, and the need for true BI in the enterprise.	Sep 2, 2025	N/A

Modules completed

N/A in the module assessment result column means either the module assessment doesn't exist or there's no pass record for it. All modules in this table are complete.

Module title	Description	Completed on	Duration	Module assessment result
Implement row-level security	Row-level security (RLS) allows you to create a single or a set of reports that targets data for a specific user. In this module, you will learn how to implement RLS by using either a static or dynamic method and how Microsoft Power BI simplifies testing RLS in Power BI Desktop and Power BI service.	Sep 4, 2025	39 min	N/A

Module title	Description	Completed on	Duration	Module assessment result
Create dashboards in Power BI	Microsoft Power BI dashboards are different than Power BI reports. Dashboards allow report consumers to create a single artifact of directed data that is personalized just for them. Dashboards can be comprised of pinned visuals that are taken from different reports. Where a Power BI report uses data from a single dataset, a Power BI dashboard can contain visuals from different datasets.	Sep 4, 2025	59 min	N/A
Choose a content distribution method	Choose a content distribution method for Power BI.	Sep 4, 2025	25 min	Module assessment passed Sep 4, 2025
Manage datasets in Power BI	With Microsoft Power BI, you can build multiple reports from a single dataset, meaning that if you change the dataset, all reports will be updated with that change. Additionally, you can clean and prep data once rather than repeatedly for each report.	Sep 4, 2025	25 min	N/A
Manage workspaces in Power BI service	Explore the Power BI service, create and manage workspaces, and distribute reports to users.	Sep 4, 2025	20 min	Module assessment passed Sep 4, 2025

Module title	Description	Completed on	Duration	Module assessment result
Perform analytics in Power BI	You will learn how to use Power BI to perform data analytical functions, how to identify outliers in your data, how to group data together, and how to bin data for analysis. You will also learn how to perform time series analysis. Finally, you will work with advanced analytic features of Power BI, such as Quick Insights, AI Insights, and the Analyze feature.	Sep 4, 2025	1 hr 7 min	N/A
Enhance Power BI report designs for the user experience	Enhance Power BI report designs for the user experience	Sep 4, 2025	1 hr 36 min	N/A
Design Power BI reports	Because Power BI includes more than 30 core visuals, it can be challenging for a beginner to select the correct visual. This module will guide you through selecting the most appropriate visual type to meet your design and report layout requirements.	Sep 4, 2025	1 hr 55 min	N/A

Module title	Description	Completed on	Duration	Module assessment result
Scope report design requirements	Gathering appropriate inputs to scope your report design requirements involves identifying your audience, determining the suitable report types, and defining their interface and experience requirements. This module provides you with a strong foundation on which to learn how to plan your report design requirements.	Sep 4, 2025	29 min	N/A
Optimize a model for performance in Power BI	Performance optimization, also known as performance tuning, involves making changes to the current state of the data model so that it runs more efficiently. Essentially, when your data model is optimized, it performs better.	Sep 3, 2025	1 hr 9 min	N/A
Create visual calculations in Power BI Desktop	Calculations in Power BI are necessary to enrich data analysis. Visual calculations simplify complex formulas, enhance performance, and reduce maintenance.	Sep 3, 2025	54 min	Module assessment passed Sep 3, 2025

Module title	Description	Completed on	Duration	Module assessment result
Use DAX time intelligence functions in Power BI Desktop models	By the end of this module, you'll learn the meaning of time intelligence and how to add time intelligence DAX calculations to your model. These calculations will include year-to-date (YTD), year-over-year (YoY) growth, and others.	Sep 3, 2025	34 min	N/A
Choose a Power BI model framework	Describe Power BI data model frameworks, their benefits and limitations, and features to help optimize your Power BI data models.	Sep 3, 2025	46 min	Module assessment passed Sep 3, 2025
Clean, transform, and load data in Power BI	Power Query has an incredible amount of features that are dedicated to helping you clean and prepare your data for analysis. You will learn how to simplify a complicated model, change data types, rename objects, and pivot data. You will also learn how to profile columns so that you know which columns have the valuable data that you're seeking for deeper analytics.	Sep 3, 2025	2 hr 1 min	N/A

Module title	Description	Completed on	Duration	Module assessment result
Modify DAX filter context in Power BI Desktop models	By the end of this module, you'll be able to describe filter context, which is used to evaluate measure formulas. You'll then learn why some calculations need to modify filter context and that it can be achieved by using the CALCULATE function. Additionally, you'll learn how to configure the CALCULATE function with filters and filter modifiers.	Sep 3, 2025	1 hr 7 min	N/A
Create DAX calculations in semantic models	Adding DAX calculations to Power BI semantic models allows you to define custom logic within your data model, to enable deeper analysis and data-driven business decisions.	Sep 3, 2025	1 hr 25 min	N/A
Write DAX formulas for Power BI Desktop models	In this module, you'll learn how to write DAX formulas to create calculated tables, calculated columns, and measures, which are different types of model calculations. Additionally, you'll learn how to write and format DAX formulas, which consist of expressions that use functions, operators, references to model objects, constants, and variables.	Sep 3, 2025	30 min	N/A

Module title	Description	Completed on	Duration	Module assessment result
Get data in Power BI	You will learn how to retrieve data from a wide variety of data sources, including Microsoft Excel, relational databases, and NoSQL data stores. You will also learn how to improve performance while retrieving data.	Sep 3, 2025	1 hr 46 min	N/A
Configure a semantic model	Semantic models organize complex data into an intuitive structure, enhancing data visualization and enabling efficient, insightful reporting for better decision-making.	Sep 3, 2025	1 hr 20 min	N/A
Ingest Data with Dataflows Gen2 in Microsoft Fabric	Data ingestion is crucial in analytics. Microsoft Fabric's Data Factory offers Dataflows (Gen2) for visually creating multi-step data ingestion and transformation using Power Query Online.	Sep 3, 2025	1 hr	Module assessment passed Sep 3, 2025
Manage Copilot in Microsoft Fabric	Manage to Copilot in Microsoft Fabric.	Sep 3, 2025	21 min	Module assessment passed Sep 3, 2025
Implement Microsoft Fabric Data Agents (chat with your data)	Implement Microsoft Fabric Data Agents (chat with your data)	Sep 3, 2025	54 min	Module assessment passed Sep 3, 2025

Module title	Description	Completed on	Duration	Module assessment result
Get started with Copilot in Microsoft Fabric for Data Warehouse	Get started with Copilot in Microsoft Fabric for Data Warehouse	Sep 3, 2025	46 min	Module assessment passed Sep 3, 2025
Get started with Copilot in Microsoft Fabric for data engineering	Get Started with Copilot in Microsoft Fabric for data engineering.	Sep 3, 2025	1 hr 26 min	Module assessment passed Sep 3, 2025
Introduction to Copilot in Microsoft Fabric	Introduction to Copilot in Microsoft Fabric.	Sep 2, 2025	27 min	Module assessment passed Sep 2, 2025
Extend data insights with Power BI Copilot	Use Power BI Copilot to create data insights based on semantic models with minimal effort.	Sep 2, 2025	27 min	Module assessment passed Sep 2, 2025
Introduction to end-to-end analytics using Microsoft Fabric	Discover how Microsoft Fabric can meet your enterprise's analytics needs in one platform. Discover the capabilities Fabric has to offer, understand how it works, and identify how you can use Fabric for your analytics needs.	Aug 18, 2025	20 min	Module assessment passed Aug 18, 2025

Module title	Description	Completed on	Duration	Module assessment result
Get started building with Power BI	Power BI is a collection of software services and applications that let you connect to all sorts of data sources and create compelling visuals and reports. You can benefit from receiving those reports, or you can share them with others inside or outside your organization. Learn the basics of Power BI, how its services and applications work together, and how they can be used to create or experience compelling visuals and analytics based on your data.	Aug 6, 2025	21 min	N/A
Discover data analysis	Would you like to explore the journey of a data analyst and learn how a data analyst tells a story with data? In this module, you will explore the different roles in data and learn the different tasks of a data analyst.	Aug 6, 2025	36 min	N/A
